

Greenwood Leflore Hospital

The right care at the right time—glh.org

MEMO

To: All Employees and Medical Staff
From: Gary G. Marchand, Interim Chief Executive Officer
Subject: UMMC and GLH Lease Discussions Update
Date: October 25, 2022

We are providing the following update on recent activities involving the proposed lease with UMMC.

Because of the funding, as well as regulatory and legal challenges that remain under discussion between GLH and UMMC, we will not be able to present to the city and county the definitive documents necessary for a lease agreement. As a result, we will not be able to present definitive documents to the IHL Board for their consideration at their November meeting. As we have stated in previous communications, steps that GLH has taken to this point were to position us to remain viable until early December at which point we had expected to transition to UMMC.

Throughout the past several months there has been no Federal or State support of the lease transaction between UMMC and GLH. Under current operating conditions, we expect to operate until the end of November.

However, the administrative team at GLH has begun the process of evaluating a plan for the closure of additional services and cost reductions that might allow certain services to continue into 2023. In the absence of this plan, the closure of the hospital remains a possibility.

We will continue to provide you with updates.
